

*With the cutting-edge*  
**Metaton**  
*technology...*

*...you can learn everything  
about your "robust health"  
in an hour.*

*A multipage **STORY** of your **BODY**.  
Un-put-down-able reading!*

**N**OT SO LONG AGO having all of your systems thoroughly diagnosed would mean weeks, kilodollars, and mega-pains. The tests relied on disparate technologies such as X-rays, ultrasound, tomography, nuclear magnetic resonance, etc. Juxtaposing an array of results to work out a sensible diagnosis could baffle even a team of doctors.

Also, old technologies could in most cases identify malfunctions and diseases, but no incipient troubles.

Not so with Metaton technology.

### **No pains, MANY gains!**

Visualize yourself in a pleasant room, without those forbidding hospital attributes. The only inconvenience will be earphones.

You may read about golf, or chat with the doctor, or drink coffee. Or watch on the PC monitor as an exciting story of your body unfolds.

### **What you get**

In an hour or so you'll get pages filled with unique insights into the workings of your respiratory, cardiovascular, endocrine, nervous, urogenital, lymphatic, immune, endo-

crine and other systems; and also about your skin, bones, etc.

Any malfunctions, disorders of whatever origins will be indicated. Any infections will be diagnosed. If necessary, a blood count to 45 biochemical indices can be made, along with genetic studies.

Any pathogenic flora, such as bacteria, fungi, viruses, and protozoans, will be identified.

Also, for some specific organs you will get colored computer pictures with markers, each of which reflects the status of the part.

*Safe. Accurate.*

*No limitations.*

*No counterindications!*

### **The Metaton principle**

It took a team of doctors, physicists, and computer programmers 15 years to create and painstakingly test this amazing technology.

Its underlying principle is as follows. All of our tissues (organs) emit electromagnetic radiations with unique spectra.

When detected and deciphered, those emissions can tell a physician an exciting story of any organ.

The Metaton method is so sensitive as to detect the slightest deviations of a tissue from the norm.

Proprietary software transforms esoteric data into readable reports, charts and pictures.

**Thorough clinical tests confirmed the reliability, safety and efficiency of the method. Both in diagnostic and treatment modes.**

## Treatment

The Metaton technology has an enormous diagnostic potential. It enables a doctor to reveal

«Элиос».

ВОТ НЕКОТОРЫЕ ОТЗЫВЫ ОТ КЛИЕНТОВ:

Antonio D., 54

“... it has never occurred to me that in just two hours I can learn about my health so much. A similar investigation in conventional clinics would take 3-4 weeks, and cost 10 times more.”

«... никогда не думал, что за 2 часа смогу узнать о моем здоровье столько информации. На подобное обследование в обычных клиниках потратил бы 3-4 недели, да и заплатил бы раз в 10 больше...»

Pilar G., 46

“I have always been afraid of injections, AIDS, all sorts of radiation exposures, taking in some preparations to get investigated. Well, and walking from specialist to specialist, undressing, dressing, I did not want that. And here, within an hour I got all my system totally researched. I received quite comprehensible images of my organs with clear indications of their health status. Well, after some treatment, I forgot about many troubles with my health.”

«... я всегда боялась уколов, заразиться от этого СПИДом, всяких облучений, пить разные препараты для обследований. Да и ходить по разным кабинетам, раздеваться, одеваться не хотелось. А здесь, буквально за час, я обследовала полностью весь организм. Получила на руки очень понятные для меня изображения моих органов с отображением их состояния здоровья. А, после лечения, забыла о многих проблемах со здоровьем ...»

Jorge R., 68

“... arthritis pains for 20 years. Each year, things are getting worse and worse. After an investigation and treatment I felt much better, even walking now without stick. And no chemical preparations! I recommend to all my friends.”

«...боли из-за артрита уже 20 лет. С каждым годом все хуже. После проведенного обследования и лечения стало намного лучше, я даже оставил палку. Но при этом никаких химических препаратов. Теперь советую всем друзьям...»
